DYNAREX4494	DENTAL BIB MAUVE	500/CS
DYNAREX4495	DENTAL BIB LAVENDER	500/CS
DYNAREX4496	DENTAL BIB BLACK	500/CS

Dynarex's Dental Bibs are high quality, standard sized bibs constructed of 2-ply paper with a waterproof poly backing. The paper layers absorb fluids while the poly backing resists any soak through, maximizing patient protection. The Dynarex Dental Bibs are 17 3/4" long by 17 7/8" wide and available in your choice of seven colors.

MEDICOM8289	DENTAL BIB 3 PLY AQUA	500/CS

Tattoo Cartridges

The Dynarex Fearless Tattoo Cartridge line includes a casing which is constructed of medical grade plastic and utilizes a membrane system, preventing ink back flow and contamination. The Fearless Tattoo Cartridge needle groupings have been crafted from surgical stainless steel, clean soldering and have been sharpened to a razor-sharp point, allowing for clean needle penetration to provide the highest possible precision.

- Cartridge casing has imprinted sizes on casing for easy identification and utilizes a membrane system, preventing ink back flow and contamination
- Consistent needle groupings and razor-sharp point for clean needle penetration and precision
- Each needle cartridge is sterilized and individually wrapped in blister packs with an EO gas proof strip indicator
- Needle Size: #12 Needle (0.35mm needle diameter) and #10 Needle (0.30mm needle diameter)

Disposable underpads keep beds, chairs and other surfaces dry. TENA® disposable bed pads and seat protectors provide proven protection and breakthrough technology to absorb leakage, reduce odours and control bacteria. Plus, the breathable, non-woven material resists tearing and allows heat to escape.

DYNAREX2168	SOAKER PAD 4"x7"	500/BX
DYNAREX2169	SOAKER PAD 6.25"x7"	500/BX

Dynarex Soaker Pads feature an absorbent center wrapped in a polyethylene film. These pads do not adhere to skin, allowing for easy removal without damaging the healing tattoo. There are tiny perforations on one side, allowing excess ink to be absorbed without completely drying out the fresh tattoo.

- Absorbent center is wrapped and sealed on all four sides by a polyethylene film
- Perforations on one side
- Non-stick for easy removal
- Absorbs excess ink after tattoo application

Our cohesive bandage maintains consistent non-slip compression, yet is soft, flexible, and porous. It sticks only to itself and never leaves residue. Utilizing woven fabric, Dukal Cohesive Bandage tears by hand in both directions. An excellent product when additional support is needed. This durable self adhesive wrap is well suited for use in a variety of applications and comes in many colors and sizes.

This product contains latex.

Dynarex Sensi-Wrap Bandages are lightweight bandages that are self-adherent that can easily be torn without scissors. These Sensi-Wrap Bandages stick to itself, but not to other materials or skin.

- No clips or fasteners needed; adhesive wrap sticks to itself, not to other materials or skin
- Will not slip - layers "bond" together for the strongest holding power
- Individually poly bagged
- Each assorted pack contains the following colors: red, green, purple, dark blue, pink and light blue.

- DUKAL138** 3 x 8" Sterile Non-Adherent Pad 1/pk, 75 pk/bx

Non-Adherent Pads are designed to protect the wound. The non-stick outer facing will allow the dressing to absorb but not adhere to the wound. The easy removal of the pad will minimize the trauma to the wound site.

- DUKAL5810** COMBINE ABD PAD 8"x10" STERILE 25/BX

- Highly absorbent multi-layer dressing
- Soft non-woven outer facing wicks moisture into the cellulose core that quickly absorbs and disperses fluid
- Moisture resistant barrier prevents fluid strike-through
- All edges are sealed to prevent linting and leakage
- Not made with natural rubber latex.

BSN7237801	HYPAFIX TRANSPARENT 10cm x 10m	RL
BSN7237802	HYPAFIX TRANSPARENT 15cm x 10m	RL

Hypafix® transparent is a transparent and waterproof polyurethane film coated with a very skin-friendly polyacrylate adhesive. The waterproof film offers optimal protection for the wound. It is waterproof and a bacterial barrier. Its semi-permeable structure allows the skin to breathe thus reducing the risk of macerations. The extra-thin film conforms like a second skin to the contours of the body, including joints and extremities. The transparency of the film keeps the dressing inconspicuous and allows visual inspection of the wound environment at all times. Hypafix® transparent is easy to apply due to its innovative application system.

Dynarex View Guard Transparent Film Dressing Rolls easily conforms to difficult body contours, while allowing the patient to move and flex. The Transparent Dressing Rolls can easily be cut to size for different applications and retention of primary dressings.

- Can be easily cut to desired shape or size
- Conforms to body contours and flexes with patient movement, without stress on skin
- Can be worn up to seven days
- Ideal for use around IV sites, for wound care, and surgical site protection

Surface Disinfectants

CaviCide1, a multi-purpose disinfectant/decontaminant cleaner, can be used on hard, non-porous surfaces. CaviCide1 is effective in killing bacteria and fungi in 1 minute, including TB, Norovirus, HIV-1, HBV, HCV and many more. When used as directed, fragrance-free CaviCide1 will effectively clean and disinfect surfaces and can help reduce the risk of cross-contamination.

TuffStuff Narrow Band Wet Mop - Orange - Medium

TuffStuff's synthetic-cotton blend yarn is a workhorse that outlasts conventional mops by 5 to 8 times and stands up well to laundering. The synthetic component of the yarn adds durability; the cotton boosts absorbency and reduces drying time. The tailband helps keep the mops fan shape, providing better floor coverage and eliminating tangles. TuffStuff narrow-band mops can be used with EZ-Change or Quickway handles.
